PROFILE

Adaptable Fullstack Software Engineer with a Bachelor's in Information Technology (GPA 3.83/4.00) and hands-on experience building scalable web applications and enterprise systems using Laravel, Node.js, Express.js, React, and Next.js. Certified Cloud Practitioner (AWS & Alibaba Cloud) skilled in end-to-end SDLC, RESTful API design, database optimization, and cloud deployment. Self-driven with strong async communication skills, ready to own features end-to-end in remote software engineering teams.

TECHNICAL SKILLS

Backend: Laravel, PHP, Node.js, Express.js, RESTful APIs, MySQL, PostgreSQL

Frontend: React.js, Next.js, Tailwind CSS, Alpine.js, HTML5, CSS3, JavaScript(ES6+)

Databases: PostgreSQL, MySQL

DevOps & Cloud: AWS, Alibaba Cloud, Google Cloud Platform (GCP), Docker (Basic), Git/GitHub, Postman, cPanel

Automation & Tools: UiPath (RPA), YOLOv5, Flutter

PENGALAMAN EXPERIENCE

Fullstack Developer — PT Amora Walet Indonesia | Laravel, PHP, MySQL, Tailwind, Alpine.js

May 2026 – Present | Remote/Hybrid Indonesia

- Architected and developed an end-to-end Manufacturing Execution System (MES) to digitize and automate raw swallow nest production workflows.
- Engineered full-lifecycle production tracking modules covering raw material washing, quality grading, and finished goods management.
- Implemented real-time inventory management and Quality Control (QC) modules, reducing manual data entry errors and accelerating product release cycles.

IT Programmer Intern — PT Multi Spunindo Jaya Tbk (Kemnaker Program)| Laravel, PHP, MySQL, JavaScript, UiPath RPA

Oktober 2025 – Maret 2026 | Indonesia

- Built "TSI Inventory," a real-time warehouse management system (WMS) using Laravel to optimize manufacturing stock tracking.
- Automated SAP document workflows using UiPath RPA, streamlining validation processes for Material Master and Bill of Materials (BOM).
- Maintained and debugged internal enterprise applications (MSJ Magang & Document) to ensure system stability and high uptime

Backend Developer Intern – Involuntir | *Laravel , Flip API, MySQL*

2025 | Indonesia

- Engineered core backend modules and scalable CRUD REST APIs for "Rintisar," a workspace booking platform.
- Integrated Flip Payment Gateway API and secure media upload functionalities for seamless transaction processing.
- Managed server deployment and routine maintenance via cPanel.

Software Engineering Intern – PT Pelindo Marine Service | *YOLOv5, Flask, CodeIgniter*

2024 – 2025 | Indonesia

- Built an AI-driven computer vision system using YOLOv5 for PPE detection (helmet & vest) with 87% accuracy.
- Authored comprehensive technical documentation for internal applications (Marron and Mardoc), including system architecture and flowcharts.
- Optimized overall company website performance and developed administrative monitoring dashboards.

SELECTED PROJECTS

- **Tukuwan Inventory – Mobile-First SaaS WMS | TypeScript, Supabase, PostgreSQL, Barcode Scanning**
SaaS-ready, mobile-optimized warehouse management system featuring instant barcode scanning and low-latency real-time database synchronization via Supabase.
- **Orderx – AI WhatsApp Ordering System | TypeScript, Meta WhatsApp Cloud API, Groq AI, Google Sheets API**
Automated AI-powered WhatsApp ordering system that processes natural language orders via Meta Cloud API and syncs transactions in real-time with Google Sheets.
- **AI Lead Prospecting & Audit Pipeline | TypeScript/Node.js, Web Scraping, Telegram Bot API, LLM**
Automated lead generation engine that scrapes business data from Google Maps and Instagram, performs AI website audits, and streams prospect reports to Telegram.

EDUCATION

Bachelor of Information Technology – Telkom University

2021 - Present

- **GPA:** 3.83 / 4.00
- **Relevant Courses:** Web Programming, Cloud Computing, Computer Networks, Artificial Intelligence, Internet of Things (IoT)

CERTIFICATIONS

- Alibaba Cloud Certification Associate – Alibaba Cloud
- Cloud Computing Analyst Certification (BNSP) – Inixindo
- Alibaba Cloud Certified Developer – Alibaba Cloud
- Python Crash Course (Udemy)
- Basic SQL – Dicoding Indonesia
- Basic JavaScript Programming – Dicoding Indonesia
- AWS Cloud Practitioner Essentials – Dicoding Indonesia

LEADERSHIP & ORGANIZATIONAL

Head of Interests & Talents Department – Student Association of Information Technology

Initiated and managed the 'ITGotTalent' program to accommodate student creativity and interests.

Event Division Member – IT Student Orientation Program

Managed events and logistics for new student onboarding.

LANGUAGES

- Indonesia (Native)
- English (Intermediate)
